BRITISH PEACE ADVOCATE DIES

Arthur Henderson Stricken Without Knowing About War in Ethiopia

HAD WON NOBEL PRIZE

Recent Events Kept from Statesman for Fear Shock Would Kill Him

By The Associated Press
LONDON, Oct. 21.—Arthur Henderson, implacable foe of war, died without knowing his great dream of world peace had been shattered by the boom of guns in east Africa.

Attaches of the West End Nursing home where the president of the world disarmament conference died last night disclosed today that Henderson—whose indefatigable crusade for peace was inspired by the death of his eldest son in the world war—had not seen a newspaper for six weeks.

He had the 72-year-old statesman been told of the mounting European crisis for fear the shock would prove too great.

Score of the nation's leaders intent on forging Great Britain's foreign policy, were left off in the when the Labor government fell last night in a vote on a peace treaty known as the Locarno.

George Lansbury, who succeeded Henderson as chairman of the Parliamentary party in 1931, said he wished his passing might induce statements of the world even at this late hour to call a halt to the mad race of armaments.

The death of Henderson, who started life as an iron moulder in Glasgow, Scotland, marks the passing of the first of a series of humble born British workmen who dedicated their youth to the building of British labor in the pre-war years.

They made labor a powerful force in British public life during and after the war and rose to power on labor's forward surge.

Henderson, who less than a month ago underwent an operation, won the Nobel peace prize in 1934.

more of \$500,000 above his \$8,800,000 from the original bill. It not appears definite that the increase will exceed \$1,000,000. The governor has 10 days in which to consider the bill. If he again cuts it extensively an effort to override the veto probably will be made.

Senate leaders have decided that after the budget is disposed of they will consider next year's relief financing and then a permanent tax program. The tax program the special senate tax committee has decided shall consist only of an extension of the sales tax with possible amendments eliminating some of the present exemptions and extending the tax to some classes of service.

Building Plan Hopeless

While the governor says he hopes the legislature will pass a building program bill calling for \$10,000,000, it appears to be little hope of enactment. Many members say the measure is now dead and that it cannot be carried out as federal funds will not be forthcoming. The program contemplates an allotment of \$2,450,000 federal money.

The governor's proposed crime bureau is expected to revive the political fight which centered around it during the regular session last spring and possibly it from coming to a vote in either branch.

DUCK HUNTERS OUT AS SEASON STARTS

Best Sport in Years Predicted Despite New, Rigid Regulations

By The Associated Press
WASHINGTON, Oct. 21.—The roar of thousands of guns firing mistakes toward groups of fast flying birds sounded throughout 25 northern zone states today as the fall duck hunting season began.

The jangle of alarm clocks aroused hunters with the dawn as the new season opened all hurried to their blinds or other vantage points ready for the first ducks to wing their way past.

Although this season's sport will be held under the most restricted regulations ever imposed opportunities for the best sport in years have been predicted by More Game Birds in America Inc., a New York foundation which conducted a duck census and estimated that perhaps 85,000,000 birds would fly south.

This year's restrictions include the limiting of the shooting to the hours between 7 a. m. and 4 p. m. daily the prohibition of live decoys and baiting ducks to kill a tag held in 10 birds per day and the limiting of all firearms to three shot. Hinxboxes and other boats or other ways shooting also are taboo.

FEAR OF INFLATION AFFECTS STABILITY

O. S. U. Professor Links Price Rise to War News and Potential Demand for Goods

By The Associated Press
COLUMBUS, Oct. 21.—Ohio State university professor of business economics today pointed out that the fear of inflation and its effect on the stability of the economy is a factor in the current state of demand.

Miss Vlna Booth of the bureau of business research said the extent of the present upward movement in prices is somewhat greater than is warranted by the current state of demand.

The renewed inflation whispering reflects in part the continued war news from Europe as it is related to the possibility of expanding demand for American commodities and in part the increased effort in many industries to break down assumed resistance of potential buyers of new models of automobiles, new factory equipment and household appliances.

Miss Booth listed as a second factor in expansion of retail sales the reappearance of installment buying.

The National Association of Sales Finance companies report installment credit sales amounting to \$310,000,000 in July 1935 as compared with \$402,000,000 in January 1935 and with \$411,000,000 in January 1934.

Miss Booth listed as evidence of greater stability in the automobile production increased taking of steel by automobile manufacturers the upward movement in both freight car loadings and in electrical power production.

Police took them into custody for driving too fast and ignoring red traffic lights. Discovery of the shotgun in the car led to questioning that brought out the wedding plans.

As a result of arrangements in which the parents of the young couple and Warren built a juvenile officer in the court of juvenile Judge Oscar Gast took a hand the couple was turned over to their parents yesterday afternoon and taken back to Nelsonville.

SURVEY LEADER DENIES CHARGE

Says Politics Has Nothing To Do With Reports or Recommendations Made.

COLUMBUS, O., Oct. 21.—An official said today the Ohio government survey is interested in good government, not politics.

The survey "knows no partisan politics, nor has it any political theory to support or any partisanship to promote," D. C. Keller of Cincinnati, treasurer of the organization, said in a letter to the East Liverpool Chamber of Commerce.

Keller added that any criticism that may be expressed or implied in survey reports is "based not upon personalities or political parties, but upon methods, forms and character of governmental operation."

To Help Taxpayers

He declared that "if at any time

the survey interferes with partisan political advantage, it is too bad—for that party. The survey is designed to be of benefit to citizens and taxpayers—and that only. We will not countenance any partisan political considerations."

Gov. Davey said that work that the publicly agent of a political opponent prepared reports of survey activities for publication and that the reports "were studiously given the color of an attack on my administration."

Keller asserted "I know of no single action, item of investigation, feature of report or expression of any kind made by the survey which was designed for partisan political purposes or which was considered in the slightest for its political effect."

Keller also said that "the survey will demand at an early date a substantial degree of compliance with its recommendations."

Lape Asks for Action

Herbert N. Lape, Columbus manufacturer and chairman of the survey "how about it" committee, had asked why Gov. Davey has not taken more action toward placing into effect part of the survey's recommendations.

The governor replied to Lape that he intended to take action toward putting into effect several proposals.

On demanding compliance with its recommendations, Keller said the survey "will continue to do that until performance is accomplished, no matter whether the administration in Ohio be Republican, Democratic or what have you."

THE STARS SAY--
For Tuesday, Oct. 22

ACCORDING TO the lunar
transits bearing rule on the af
fairs of this day, a peculiar and
somewhat baffling situation may
be expected. Although there are
augures of a major event with
opportunities of an entirely un
expected nature involving a
radical change with new environ
ments and interests yet there are
tenuous obstacles and a very
difficult state of affairs to
negotiate. Delays and reversals
must be coped with but when
unmounted progress of far
reaching force may be expected.
The good offices of a stranger
may assist in vanquishing these
impediments.

Those whose birthday it is may
find themselves launched in a year
of unusual prospects for progress
and prosperity but beset by diffi
culties delays and impediments.
A radical change in the affairs
seems imminent with the aid of
a stranger or entirely new inter
ests serving to bring about favor
able developments.

A child born on this day may
have brilliant talents of a bold
and original nature but may be
beset by many difficulties to

"Camels don't get your Wind"
FAMOUS ATHLETES AGREE

So Mild! YOU CAN SMOKE ALL YOU WANT!

CAMELS MUST BE MADE FROM CHOICE TOBACCO TO BE SO MILD AND STILL SO FULL OF FLAVOR. I GET A LIFT WITH A CAMEL AND THEY NEVER UPSET MY CONDITION.

MY JOB GOES BETTER WHEN I FEEL TOP NOTCH. I CAN SMOKE CAMELS STEADILY WITHOUT AFFECTING MY WIND. THE MORE I SMOKE THEM THE BETTER I LIKE THEM.

I'M AS INTERESTED IN KEEPING FIT AS ANY ATHLETE. CAMELS NEVER UPSET MY NERVES EVEN AFTER STEADY SMOKING AND THEY NEVER AFFECT MY WIND.

WHAT I'VE READ ABOUT ATHLETES SMOKING CAMELS SQUARES WITH MY OWN EXPERIENCE. I KNOW CAMELS ARE MILD. THEY NEVER GET MY WIND.

George M. Lott Jr. **Gus Harrison**

If you have searched for cigarette mildness, mark the words of George Lott, the tennis champion, and the 7 goal polo star, Cyril Harrison. "Camels," says Mr. Harrison, "are so mild they don't upset the nerves or affect the wind. And when I'm tired I get a lift with a Camel. And Lott adds, "I found a delightful new experience in Camels. I understand that more expensive tobaccos are used in Camels. Naturally the cigarette that is blended from more expensive tobaccos is going to be easy and gentle on the throat. And Camels never get my wind. I'd walk a mile for a Camel. Camels are made from more expensive tobaccos than any other popular brand. Turn to Camels and enjoy to the full the pleasure that comes from milder tobaccos."

Some of the famous athletes who smoke Camels...and recommend them for their mildness
